

Good News from Wilmington Medical Associates & Pediatrics

We're merging with PriMed Physicians.

We will continue to offer:

- Same great services, including onsite lab
- Same doctors and staff whom you know and trust
- Same locations, phone numbers and office hours

We are committed to remaining in the community and serving our patients' healthcare needs.

The transition gets underway this fall. We'll integrate into PriMed's operating systems. You'll notice some changes, such as different billing statements and the check-in process for the first visit after the merger will be different. Your patience is appreciated during the transition.

PriMed accepts most - but not all - insurance plans.

We recommend you check with your health plan to confirm that PriMed Physicians participates in your provider network.

Thank you for allowing us to be your primary care providers.

Why join PriMed Physicians? By becoming part of PriMed, we have the opportunity to grow, while continuing to nurture supportive relationships with our patients in Wilmington. PriMed is a physician-owned, independent medical group. With 20 locations throughout Greater Dayton, PriMed offers a complete range of exceptional healthcare services:

- Family Practice
- Internal Medicine
- Pediatrics
- Cardiology
- Neurology
- Endocrinology

Wilmington's First Choice for Medical Care Since 1975
