

California law requires the periodic update of county General Plans. The 1989 Sonoma County General Plan was scheduled for the required update and the Sonoma County Board of Supervisors directed the Permit and Resource Management Department (PRMD) to prepare an "issue-focused" update, referred to as GP 2020.

With the firm of Nichols-Berman acting as the project manager and EIR consultant, EGS was selected as part of the consultant team to prepare the mandated Environmental Impact Report (EIR) on the new General Plan. Our scope of work was to prepare **Public Safety Element** sections addressing protection from **Geologic Hazards** and protection from **Hazardous Materials**. We also wrote the **Soil Resources, Mineral Resources,** and **Geothermal Resources** portions of the **Resource Conservation** element and responded to public comments.
